

ILBSA Announces Lead-Safe Training

Now Available Online

HERE'S WHAT ILBSA IS DOING about the EPA mandate for *Lead-Safe Work Practices* training that went into effect on April 22nd. Most everyone knows that this training applies to a wide cross-section of our members' customers – painters, remodelers, plumbers, electricians, roofers, mechanical contractors, etc. Question is: How do the thousands of individuals get trained when there are so few qualified trainers?

We've discovered a GREAT solution to the problem. We're proud to team with ComplyAbility, a unique and first-class online provider of Online *Lead-Safe Work Practices* Training. Six (6) hours of online training is accompanied by two (2) hours of "hands-on" skills assessment.

"Hands-On" classes are scheduled at locations as convenient to you as possible. Once ILBSA members take and complete the online portion of the training, we'll determine hands-on locations convenient for them. (You must sign up for a hands-on training class in advance by responding to an email you will receive upon completion of the online portion of the training. Bring your "Online Training Completion Certificate" with you to gain admittance to the hands-on training.) The Special discount is ONLY for ILBSA members and their customers.

This is a GREAT service and opportunity you can offer to your builder customers! Who is covered? Painters, Remodelers, Renovators, Contractors, Plumbers, Electricians, Roofers...

You must use *Lead Safe Work Practices* when working in child occupied facilities or homes built before 1978. To become RRP Certified, you MUST receive training from an Accredited Training Provider!

The online price is normally \$195 per person. Your cost, as an ILBSA member, is just \$175. Use the Promotional Code: **ILBSA** when you register to receive the discount. Your customers will also receive this discount by using this code.

Take mandated Lead-Safe Work Practices training when it's convenient for you.

- *No sitting in uncomfortable chairs, in stuffy rooms, daydreaming or thinking about what you have to do when you return to work.*
- *You learn in a non-stressful environment because you have control over your training experience.*
- *No taking time away from your business and no lost income as a result.*
- *Instant access to training manuals, required forms, brochures ("Renovate Right" pamphlet that you must distribute, etc.)*
- *Plus **permanent** access to these materials.*
- *There are many additional benefits to Online training!*

All EPA forms, manuals and other materials are permanently accessible via the ComplyAbility LeadSafe Online system... Licensed Firm & Renovator Application, Training Verification Record, RRP Rule Handbook, On-the-Job Training Verification Form, and more.
